## Leaders in treating cancer and lifting spirits

**Why do I recommend the Mercy Cancer Center?** Because thanks to them, cancer didn't get the best of me. It brought out the best in me. When I got my diagnosis, I was nervous and afraid. But the care and support I received from Mercy was more than I ever could have imagined. My doctors were excellent and I felt confident knowing the technology was top of the line. Plus, everyone went that extra mile to talk with me, laugh with me and reassure me. I always felt prepared for what was next — physically, mentally and spiritually. I'm proud to say that with Mercy in my corner, and God by my side, I won the fight — and I'm ready for life's next round. **My home. My health. My Mercy.**
